Dear WADA Members,

The WADA Board is pleased to announce that we have developed 2 new resources for your use during these unprecedented times we are currently experiencing.

1. **Covid19 Toolbox** - This Covid19 Toolbox is a place where we will house resources that have been shared with us from the State Government, the WIAA, and member schools. The resources offer items you will be able to share with others and that can be used as examples of what other schools, districts, and conferences are doing with today's issues and what the future might hold.

2. **AD’s Support Resources** - As Athletic Directors around the state have scrambled, fielded calls and set up plans to help lead their districts during this unique time, we do not always know where to turn when we, the Athletic Directors, need a voice, venue, or outlet. Our goal in providing this resource is to offer opportunities to encourage you to take care of yourself and ultimately your communities as you work through these challenging times.
